HUD-CPD Region X Office determines the Maximum Subsidy Limits for Idaho. Idaho's maximum subsidy limits are calculated at 240% of the base limit for the Section 234 Program<sup>1</sup>

The high-cost percentages listed in Notice CPD 15-003 for Boise and Portland continue apply throughout Idaho and Oregon.

<sup>1</sup>Due to the discontinuation of the Section 221(d)(3) mortgage insurance program, alternate maximum per-unit subsidy limits must be used for the HOME Investment Partnerships Program (HOME). HUD is required to undertake rulemaking to establish new maximum per-unit subsidy limits for the HOME Program because it is no longer updating and publishing limits for the Section 221(d)(3) mortgage insurance program.

Until a new rule is published, HUD issued [click here] [CPD Notice 15-003: Interim Policy on Maximum Per-Unit Subsidy Limits for the HOME Program](#), the interim policy which uses the Section 234-Condominium Housing basic mortgage limits for elevator-type projects as an alternative to the Section 221(d)(3) limits. In order to determine the maximum amount of HOME funds a PJ may invest on a per-unit basis in HOME-assisted housing projects. This interim policy will remain in effect until the existing provisions of 24 CFR 92.250(a) are amended.
