Purpose of Form: All applicants for participation in FHA subsidized and unsubsidized multifamily housing programs with five or more units (see 24 CFR 200.615) must complete this Affirmative Marketing Plan (AMP) Form as specified in 24 CFR 200.625, and in accordance with the requirements in (24 CFR 200.620). The purpose of the AMP is to help applicants in developing an AMP program to achieve a condition in which individuals of similar income levels in the same housing market area have a like range of housing choices available to them regardless of their race, color, national origin, religion, sex, disability, or familial status. The AMP helps owners/agents (respondents) effectively market the availability of housing opportunities to individuals of both minority and non-minority groups that are least likely to apply for occupancy in the housing project (See AMP, Block 3b).

An Affirmative Marketing program, as specified in this Plan, shall be in effect for each multifamily project throughout the life of the mortgage (24 CFR 200.620(a)). The AMP, once approved by the Idaho Housing and Finance Association (IHFA), must be available for public inspection at the sales or rental offices of the respondent (24 CFR 200.625) and may not be revised without IHFA approval. This form contains no questions of a confidential nature.

Applicability: The form and worksheets must be completed and submitted by all FHA subsidized and unsubsidized multifamily housing projects.

INSTRUCTIONS

Send completed forms and worksheets to: Idaho Housing and Finance Association, P.O. Box 7899, Boise, Idaho 83707-1899. **Attention:** Manager, Housing Compliance and Program Support.

Exhibit T

Part 1 - Applicant/Respondent and Project Identification.

Blocks 1a, 1b, 1c, 1g, 1h, and 1i are self-explanatory.

Block 1d – Respondents may obtain the Census tract number from a local planning office, Community Development Block Grant Consolidated Plan, or another official source such as the U.S. Census Bureau (www.census.gov).

Block 1e – A *housing market area* is the area from which a multifamily housing project owner/agent may reasonably expect to draw a substantial number of its tenants.

If a housing market area is not demographically diverse in terms of race, color, national origin, religion, sex, disability or familial status, an *expanded housing market area* may be used. An expanded housing market area is a larger geographic area that may provide additional diversity. Respondents should indicate the housing is/will be located, e.g., “City of _____” for housing market area, or “City of _____” and “County of _____” for expanded housing market area.

Block 1f – The applicant should complete this Block only if a Managing Agent (the agent cannot be the applicant) is implementing the AMP.

Part 2 – Type of AMP

Block 2a – Respondents should indicate the status of the AMP, e.g., initial or updated, as well as the date of the AMP. Respondents should also provide the reasons(s) for the current update, if applicable, whether the update is based on the five-year review or mid-term revisions due to changes in local demographics or other conditions.

Block 2b – Respondents should identify all groups IHFA has approved for occupancy in the subject project, in accordance with the contract, grant, etc.

Block 2c – Respondents should specify the date the project was/will be first occupied.

Block 2d – Respondents should indicate when this revised advertising began or will begin and whether the advertising will be used to add to and/or reopen the waiting list. (**NOTE: Advertising should begin at least 90 days prior to initial occupancy**). In the case of existing projects, respondents should also specify how many individuals were or are on the waiting list at the time the advertising began or will begin.

Part 3 – Demographics and Marketing Area.

“Least likely to apply” means that there is an identifiable presence of a specific demographic group in the housing market area, but members of that group are not likely to apply for the housing without targeted outreach, including marketing materials in other languages for limited English proficient individuals, and alternative formats for persons with disabilities. Reasons for not applying can include, but are not limited to, insufficient information about housing opportunities, language barriers, or transportation impediments.

Block 3a – Using Worksheet 1, the respondent should indicate the demographic composition of the project, waiting list, census tract, and housing market area. The respondent compares the demographics of its existing project, waiting list (or any maintained list of interested housing applicants), with the demographics of the census tract and the larger housing market area to determine if there needs to be affirmative marketing to those least likely to apply. If the housing market area is not demographically diverse in terms of race, color, national origin, religion, sex, disability, or familial status, an expanded market area should be designated to enhance the diversity of individuals applying for housing opportunities. The applicable housing market area or expanded marketing area should be shown in Block 1e. Wherever possible, demographic statistics should be obtained from a local planning office, Community Development Block Grant Consolidated Plan, or another official source such as the U.S. Census Bureau (www.census.gov).

Compare groups within rows/across columns on Worksheet 1 to identify any under-represented group(s) relative to the surrounding housing market area, i.e., those group(s) “least likely to apply” for the housing without targeted outreach and

marketing. If there is a particular group or subgroup with members of a protected class that has an identifiable presence in the housing market area, but is not included in Worksheet 1, please specify under “Other.”

Block 3b - Using the information from the completed Worksheet 1, respondents should identify the demographic group(s) least likely to apply for the housing without special outreach efforts.

Part 4 – Marketing Program

Block 4a - Using Worksheet 3, respondents should describe their use of community contacts to market the project to those least likely to apply. This table should include the name of the contact person, his/her address, phone number, previous experience working with the target population(s), the approximate date contact was/will be initiated, and the specific role the community contact will play in implementing the AMP.

Block 4b – Using Worksheet 4, respondents should describe their proposed method(s) of advertising to market to those least likely to apply. This table should identify each media option, percentage of the readers/listeners/users/members/etc. who are members of the targeted population(s), language(s), into which the material(s) will be translated, alternative format(s) that will be used to reach persons with disabilities, and logo(s) that will appear on the various materials (as well as their size).

Part 5 – Availability of the Fair Housing Poster, AMP, and Project Site Sign

Block 5a – The Fair Housing Poster must be prominently displayed in all offices in which sale or rental activity takes place (24 CFR 200.620(e)). Respondents should indicate all locations where the Fair Housing Poster will be displayed.

Block 5b – The AMP must be available for public inspection at the sales or rental office (24 CFR 200.625). Respondents should indicate all locations where the AMP will be available.

Block 5c – The Project Site Sign should display the Equal Housing Opportunity logo or slogan or statement (24 CFR 200.620(f)). Respondents should indicate where the Project Site Sign will be displayed, as well as the size of the Sign and the size of the logo, slogan or statement.

Part 6 – Evaluation of Marketing Activities

Respondents should explain the evaluation process to be used to determine if they have been successful in attracting those groups identified as least likely to apply. Respondents should also explain how they will make decisions about future marketing activities based on the evaluations.

Part 7 – Marketing Staff and Training

Block 7a – Respondents should identify staff positions that are/will be responsible for affirmative marketing.

Block 7b – Respondents should indicate whether staff has been trained on the use of the AMP and specify whether there is ongoing training on the AMP and Fair Housing Act issues in general. Show who provides the training. In addition, respondents should specify whether they periodically assess staff members’ skills in relation to the AMP and staff responsibilities to use the Plan. They should state how often they assess employee skills and how they conduct the assessment.

Block 7c – Respondents should indicate whether staff has been trained on tenant selection in accordance with the project’s occupancy policy, including residency preferences (if any). Respondents should also identify those positions that are/will be responsible for tenant selection.

Block 7d – Respondents should include copies of any written materials related to staff training, and identify the dates of past and anticipated training.

Part 8 – Additional Considerations

Respondents should describe their efforts not previously mentioned that were/are planned to attract those groups least likely to apply for the subject housing without special outreach efforts.

Part 9 – Review and Update

By signing, the respondent assumes responsibility for implementing the AMP, and for reviewing and updating the Plan at least once every 5 years, and more frequently if local conditions or project demographics significantly change. IHFA may monitor the implementation of this AMP at any time, and may also request modification in its format and/or content, when deemed necessary. Respondents should notify IHFA if they plan revisions to the AMP marketing strategy after IHFA approval has occurred.

Notification of intent to Begin Marketing for initial Occupancy. No later than 90 days prior to the initiation of rental market activities, the respondent with an approved AMP must submit notification of intent to begin marketing. The notification is required by the AMP Compliance Regulations (24 CFR 108.15). The Notification is submitted to the Idaho Housing and Finance Association, P.O. Box 7899, Boise, Idaho 83707-1899. **Attention:** Manager, Housing Compliance, and Program Support. Upon receipt of the Notification of Intent to Begin Marketing from the applicant, IHFA will review any previously approved plan and may schedule a pre-occupancy conference. Such pre-occupancy conference will be held prior to initiation of rental marketing activities. At this conference, the previously approved AMP will be reviewed with the applicant to determine if the plan, and/or its proposed implementation, requires modification prior to initiation of marketing in order to achieve the objectives of the affirmative marketing regulation and the plan.

Worksheet 1: Determining Demographic Groups Least Likely to Apply for Housing Opportunities
(See AMP, Block 3b)

In the respective columns below indicate the percentage of each demographic group for the project (if occupied), waiting list (for existing projects), census tract, housing market area, and expanded housing market area (if the latter is needed to create a more diverse housing market area in terms of race, color, national origin, religion, sex disability, or familial status).

Wherever possible, statistics should be obtained from a local planning office, Community Development Block Grant Consolidated Plan, or another official source such as the U.S. Census Bureau (<http://www.census.gov/>).

If there is a significant under-representation of any demographic group in the project and/or on its waiting list relative to the surrounding housing market area, then those group(s) that are under-represented will be considered “least likely to apply” without targeted outreach and marketing, and will be so identified in block 3b of the AMP. See Part 3 of the Form IHFA-935.2A Instructions for further guidance.

Maps showing both the Housing Market Area and expanded Housing Market Area should also be attached.

Worksheet 3: Proposed Marketing Activities – Community Contacts (See AMP, Block 4b)

For each targeted marketing population designated as least likely to apply in Block 3b, identify at least one community contact organization you will use to facilitate outreach to the group. This could be a social service agency, religious body, advocacy group, community center, etc. State the names of contact persons, their addresses and phone numbers, their previous experience working with the target population, the approximate date contact was/will be initiated, and the specific role they will play in assisting with the affirmative marketing program.

Worksheet 4: Proposed Marketing Activities – Methods of Advertising (See AMP, Block 4c)

Complete the following table by identifying your targeted marketing population(s), as well as the methods of advertising that will be used to market to that population. For each targeted population, state the means of advertising that you will use, as applicable to that group. In each block, in addition to specifying the media that will be used (e.g., name of newspaper, television station, website, location of bulletin board, etc.), state any language(s) in which the material will be provided, identify any alternative format(s) to be used (e.g., Braille, large print, etc.), and specify the logo(s) (as well as size) that will appear on the various materials. Attach additional pages, if necessary.
